WELCOME TO TUBÒ | Link

ABOUT TUBÒ | Link

TUBÒ I Link is a device which allows you to receive the system operation data from your TUBÒ central vacuum unit so that it can be accessed at any time, wherever you are via the My Tubò App.

CONNECTION TYPES

LOCAL AREA NETWORK CONNECTION (real time)
is when your Smartphone or Tablet is connected to the same network as the TUBÒ I Link. The information flow from the central vacuum unit is continuous with this type of connection.

REMOTE NETWORK CONNECTION
is when your Smartphone or Tablet sends and receives data from your mobile data provider. The information is updated every 20 seconds with this type of connection, or by pressing the **Update** key on the My Tubò App.

USE

Using the My Tubò App, installed on your Smartphone or Tablet, enable connection to the TUBÒ I Link connected to your central vacuum unit and check all the technical data collected with details of the last 10 operations.

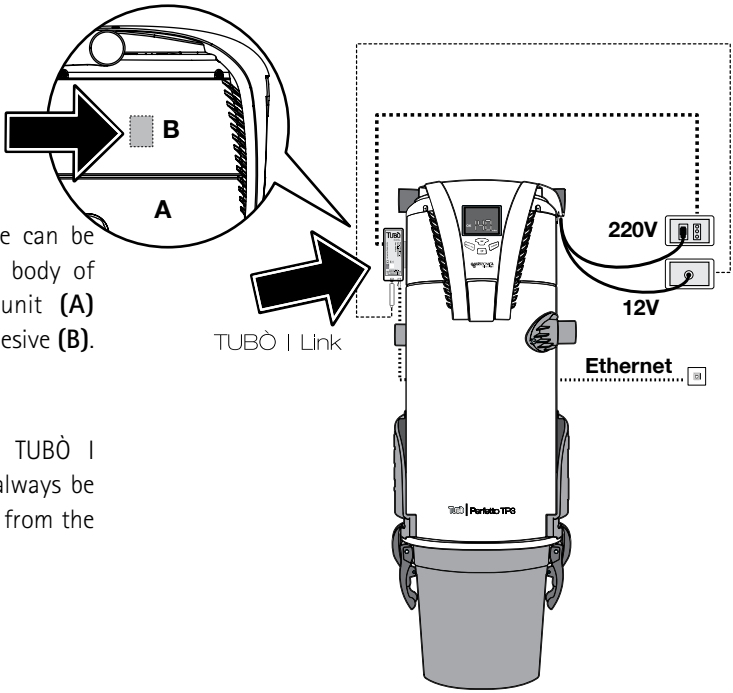
If the central vacuum unit experiences any faults or block, a notification will be sent to inform you of the problem. You can use the My Tubò App to restore the fault or block.

COMPATIBLE CENTRAL VACUUM UNITS

The TUBÒ I Link can be installed for use with all the Aertecnica central vacuum units listed in the table

CENTRAL VACUUM UNIT LINE	MODELS
PERFETTO STAINLESS STEEL	TXA
PERFETTO	TPA / TP
CLASSIC	TC
X-PERT	RT

INSTALLING THE DEVICE TUBÒ | Link

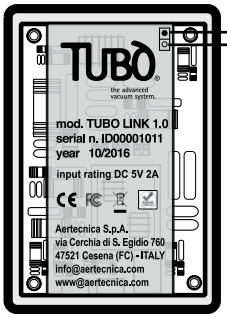


The TUBÒ I Link device can be easily installed on the body of the central vacuum unit **(A)** using double-sided adhesive **(B)**.

HAZARD

The room where the TUBÒ I Link is installed must always be kept dry and protected from the elements.

SIGNALS



RED LED - Power Supply Indicator

FLASHING GREEN LED - USB-485 communication active

TUBÒ | Link ACTIVATION
